### Options:

*FLOWsystem compatible*

FLOWsystem is a water loop solution developed by JBG-2 that allows you to easily manage the heat generated by refrigeration equipment.

The system effectively transfers heat from the sales area to the selected location and allows you to manage it further.

FLOWsystem is an easy, economic and ecologic way to achieve immediate savings in your retail store operational costs, regardless of whether it operates independently or is integrated with other installations.

### Lighting options:

\*\*requires power supply on a separate circuit,

LEDit tube

LEDit tube is mounted in rotary holders (patented pending), which ensures the correct positioning of the luminous flux.
